

## Errata Addendum to the 2021 NFIRS Public Data Release - 11/15/2022

### Updated – 3/30/2023

**This errata addendum applies to the fire/hazmat and full, all-incident PDR files.**

- 1.) There are two fire incidents on the basic incident file that do not have a fire or wildland fire module. These incidents should be excluded from all fire data analyses.

Obs	INCIDENT_KEY	INC_TYPE	AID
1	AR_05001_02242021_2021028_0	140	
2	AR_05001_03102021_2021036_0	140	

- 2.) There are five fire incidents on the basic incident file that do not have a fire module. These incidents should be excluded from all fire data analyses.

Obs	INCIDENT_KEY	INC_TYPE	AID
1	IL_MA111_07032021_1005996_0	111	N
2	TX_DH717_11082021_0024241_0	131	N
3	TX_DH717_11082021_0024241_1	131	N
4	TX_DH717_11082021_0024241_2	131	N
5	TX_RV701_11192021_0017146_0	121	N

- 3.) There are incidents where the first 8 characters of ALARM do not always match INC\_DATE. Both the NFIRS Complete Reference Guide and the Design Documentation indicate that the INC\_DATE and the date portion of ALARM are supposed to be the same (except that ALARM can be one day later than INC\_DATE if the incident is an exposure).

If you have any concerns or questions about the above information, please contact the following:

NFIRS Support Center

Hours of Operation - Monday through Friday from 8 a.m. – 4:30 p.m. Eastern time.
