

FEMA Releases State-by-State PPE Data

Release Date: Mai 15, 2020

WASHINGTON - As FEMA, under the direction of the White House Task Force, has led the whole-of-America response to the COVID-19 pandemic for the past two months, billions of essential resources and protective equipment have been delivered throughout the nation.

The federal government continues to meet demands for personal protective equipment through new acquisition, federal interagency allocation, private industry donations and the Strategic National Stockpile.

“From the beginning, we acknowledged that the Strategic National Stockpile alone could not fulfill all requirements, which is why we need continued private sector integration and increased domestic manufacturing of critical medical supplies, equipment and pharmaceuticals,” said FEMA Administrator Pete Gaynor. “Our strategy to allocate medical supplies and equipment is based on disease activity and it’s effects, as well as the need to distribute limited supplies to areas where resources needed most urgently.”

As of May 14, FEMA, HHS and the private sector combined have coordinated the delivery of, or are shipping more than 97 million respirators, 133.7 million surgical masks, 10.5 million face shields, 22.4 million surgical gowns, 989 million gloves, 10,600 ventilators and 8,450 federal medical station beds.

Resources listed below are deliveries made by FEMA Regions, and are separate from all supplies delivered through Project Airbridge distributions:

[See a graphical by-the-numbers breakdown by FEMA Region](#)

FEMA Region I

Connecticut

Critical supplies delivered: 251,186 N95 respirators, 1.8 million gloves, 194,469 face shields, 806,534 surgical masks and 350 ventilators.

FEMA

- As of May 14, FEMA has obligated more than \$24.5 million in federal support to Connecticut.
- As of May 13, four alternate care sites are operating throughout the state: St. Francis Hospital in Hartford, Middlesex Hospital in Middletown, Danbury Hospital in Danbury and Stamford Hospital in Stamford.

To date we have supplied 86,500 swabs and 2,200 units of media to Maryland.
- A phased reopening is underway.

Pennsylvania

Critical supplies delivered: 4.2 million N95 respirators, 792,846 gloves, 375,471 face shields and 916,130 surgical masks.

- As of May 14, FEMA has obligated \$62.5 million in federal support to Pennsylvania.
- As of May 14, one Battelle N95 decontamination unit is located in the Harrisburg/Glenn Mills area.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 83,400 swabs and 58,160 units of media to Pennsylvania.
- A phased reopening is underway.

Virginia

Critical supplies delivered: 545,020 N95 respirators, 386,976 gloves, 101,035 face shields and 610,221 surgical masks.

- As of May 14, FEMA has obligated \$164.8 million in federal support to Virginia.
- As of May 14, three Battelle N95 decontamination units are located in Blacksburg, Hampton and Richmond.

- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 47,800 swabs and 35,400 units of media to Virginia.
- Virginia's stay at home order ends on June 10, parts of the state are currently undergoing a phased reopening.

Washington D.C.

Critical supplies delivered: 752,677 N95 respirators, 788,760 gloves, 68,721 face shields, 414,600 surgical masks and 200 ventilators.

- As of May 14, FEMA has obligated \$56.1 million in federal support to the District of Columbia.
- USACE awarded contracts for two alternate care facilities in the District of Columbia at United Medical Center and the Walter Washington Convention Center.
- As of May 14, one Battelle N95 decontamination unit is operational in Washington, DC.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 16,400 swabs and 13,100 units of media to Washington, D.C.
- The Washington D.C. stay at home order ends on June 8, or until an emergency date extension.

West Virginia

Critical supplies delivered: 135,288 N95 respirators, 231,206 gloves, 81,459 face shields and 320,539 surgical masks.

- As of May 14, FEMA has obligated \$8.8 million in federal support to West Virginia.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market.

To date we have supplied 30,500 swabs and 21,300 units of media to West Virginia.

- A phased reopening is underway.

FEMA Region 4

Alabama

Critical Supplies to Alabama: 502,473 N95 respirators, 337,541 gloves, 73,021 face shields and 362,582 surgical masks.

- As of May 14, FEMA has obligated \$18.6 million in federal support to Alabama.
- As of May 14, one Battelle N95 decontamination unit is located in Birmingham.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 49,300 swabs and 28,136 units of media to Alabama.
- A phased reopening is underway.

Florida

Critical supplies delivered: 2.0 million N95 respirators, 1.2 million gloves, 227,699 face shields, 1.1 million surgical masks and 200 ventilators.

- As of May 14, FEMA has obligated \$106.2 million in federal support to Florida.
- As of May 14, one Battelle N95 decontamination unit is located in Miami.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 152,000 swabs and 90,100 units of media to Florida.
- A phased reopening is underway.

Georgia

Critical supplies delivered: 1.2 million N95 respirators, 1.4 million gloves, 184,505 face shields, 768,836 surgical masks and 150 ventilators.

- As of May 14, FEMA has obligated \$68.5 million in federal support to Georgia.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 59,500 swabs and 44,000 units of media to Georgia.
- A phased reopening is underway.

Kentucky

Critical supplies delivered: 797,082 N95 respirators, 521,202 gloves, 69,079 face shields and 342,922 surgical masks.

- As of May 14, FEMA has obligated \$17.3 million in federal support to Kentucky.
- As of May 14, one Battelle N95 decontamination unit is located in Louisville.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 36,900 swabs and 26,100 units of media to Kentucky.
- A phased reopening underway.

Mississippi

Critical supplies delivered: 1.3 million N95 respirators, 259,438 gloves, 59,983 face shields and 421,711 surgical masks.

- As of May 14, FEMA has obligated \$22.4 million in federal support to Mississippi.
- As of May 12, one Battelle N95 decontamination unit is located in Jackson.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 32,280 swabs and 19,100 units of media to Mississippi.
- A phased reopening is underway.

North Carolina

Critical supplies delivered: 605,492 N95 respirators, 425,854 gloves, 114,427 face shields and 580,551 surgical masks.

- As of May 14, FEMA has obligated \$24.3 million in federal support to North Carolina.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 61,300 swabs and 67,000 units of media to North Carolina.
- A phased reopening is underway.

South Carolina

Critical supplies delivered: 293,962 N95 respirators, 301,448 gloves, 71,575 face shields and 355,505 surgical masks.

- As of May 14, FEMA has obligated \$68.3 million in federal support to South Carolina.
- As of May 14, one Battelle N95 decontamination unit is located in Eastover.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 50,200 swabs and 33,400 units of media to South Carolina.
- A phased reopening is underway.

Tennessee

Critical supplies delivered: 651,338 N95 respirators, 657,302 gloves, 117,799 face shields and 677,882 surgical masks.

- As of May 14, FEMA has obligated \$127.5 million in federal support to Tennessee.
- As of May 14, one Battelle N95 decontamination unit is located in Lebanon.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market.

To date we have supplied 74,400 swabs and 52,800 units of media to Tennessee.

- A phased reopening is underway.

FEMA Region 5

Illinois

Critical supplies delivered: 3.4 million N95 respirators, 6.3 million gloves, 545,230 face shields, 1.5 million surgical masks and 620 ventilators.

- As of May 14, FEMA has obligated \$233.9 million in federal support to Illinois.
- The 3,000-bed ACS at McCormick Place Convention Center is currently operational; additional sites in Elgin, Blue Island and Melrose park are complete with operations handled by the state.
- One Battelle N95 decontamination unit is operational in Waukegan.

- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 167,000 swabs and 97,000 units of media to Michigan.
- Michigan stay at home orders are extended to May 28.

Minnesota

Critical supplies delivered: 466,519 N95 respirators, 323,640 gloves, 77,497 face shields and 519,505 surgical masks.

- As of May 14, FEMA has obligated \$375,715 in federal support to Minnesota.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 49,600 swabs and 28,660 units of media to Minnesota.
- Minnesota stay at home orders are extended to May 18.

Ohio

Critical supplies delivered: 2.8 million N95 respirators, 6.3 million gloves, 182,291 face shields and 672,263 surgical masks.

- As of May 14, FEMA has obligated \$39.7 million in federal support to Ohio.
- As of May 14, one Battelle N95 decontamination unit is located in Columbus.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market.

To date we have supplied 107,100 swabs and 8,000 units of media to Ohio.

- Ohio stay at home orders are extended until May 29.

Wisconsin

Critical supplies delivered: 221,548 N95 respirators, 477,346 gloves, 80,839 face shields and 504,163 surgical masks.

- As of May 14, FEMA has obligated \$53.9 million in federal support to Wisconsin.
- As of May 14, one Battelle N95 decontamination unit is located in Madison.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 48,700 swabs and 38,500 units of media to Wisconsin.
- Wisconsin stay at home orders are extended to May 26, with some restrictions currently lifted.

FEMA Region 6

Arkansas

Critical supplies delivered: 259,947 N95 respirators, 514,682 gloves, 112,762 face shields and 651,434 surgical masks.

- As of May 14, FEMA has obligated \$373,672 in federal support to Arkansas.
- As of May 14, one Battelle N95 decontamination unit is located in Little Rock.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 26,406 swabs and 20,600 units of media to Arkansas.
- A phased reopening is underway.

Louisiana

Critical supplies delivered: 1.1 million N95 respirators, 1.6 million gloves, 103,577 face shields, 494,800 surgical masks and 370 ventilators.

- As of May 14, FEMA has obligated \$141.1 million in federal support to Louisiana.
- As of May 14, one Battelle N95 decontamination unit is located in the New Orleans/Slidell area.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 63,000 swabs and 61,500 units of media to Louisiana.
- Louisiana stay at home orders end on May 15.

Oklahoma

Critical supplies delivered: 157,826 N95 respirators, 279,304 gloves, 63,947 face shields and 685,447 surgical masks.

- As of May 14, FEMA has obligated \$14.4 million in federal support to Oklahoma.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 50,500 swabs and 28,500 units of media to Oklahoma.
- A phased reopening is underway.

New Mexico

Critical supplies delivered: 100,068 N95 respirators, 265,430 gloves, 59,179 face shields and 237,889 surgical masks.

- As of May 14, FEMA has obligated \$24.6 million in federal support to New Mexico.
- As of May 14, one Battelle N95 decontamination unit is located in Rio Rancho.

- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 61,300 swabs and 28,900 units of media to New Mexico.
- Stay at home order extended to May 31.

Texas

Critical supplies delivered: 1.3 million N95 respirators, 2.1 million gloves, 287,193 face shields and 1.7 million surgical masks.

- As of May 14, FEMA has obligated \$400.2 million in federal support to Texas.
- As of May 14, four Battelle N95 decontamination unit are located in the Austin, Dallas, El Paso and Houston areas.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 224,800 swabs and 165,300 units of media to Texas.
- A phased reopening is underway.

FEMA Region 7

Iowa

Critical supplies delivered: 148,368 N95 respirators, 345,442 gloves, 84,577 face shields and 451,235 surgical masks.

- As of May 14, FEMA has obligated \$145.5 million in federal support to Iowa.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 38,200 swabs and 20,800 units of media to Iowa.
- No statewide stay at home orders issued, a phased reopening is underway at local levels.

Kansas

Critical supplies delivered: 516,976 N95 respirators, 2.8 million gloves, 116,842 face shields and 651,434 surgical masks.

- As of May 14, FEMA has obligated \$38.5 million in federal support to Kansas.
- As of May 14, one Battelle N95 decontamination unit is located in the Topeka/Kansas City area.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 53,500 swabs and 8,500 units of media to Kansas.
- A phased reopening with local restrictions is underway.

Missouri

Critical supplies delivered: 909,289 N95 respirators, 359,996 gloves, 84,399 face shields and 518,001 surgical masks.

- As of May 14, FEMA has obligated \$26.6 million in federal support to Missouri.
- As of May 14, one Battelle N95 decontamination unit is located in Jefferson City.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 52,500 swabs and 31,500 units of media to Missouri.
- A phased reopening is underway.

Nebraska

Critical supplies delivered: 95,788 N95 respirators, 250,930 gloves, 62,147 face shields and 227,217 surgical masks.

- As of May 14, FEMA has obligated \$16.8 million in federal support to Nebraska.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 28,500 swabs and 14,000 units of media to Nebraska.

- A phased reopening is underway.

FEMA Region 8

Colorado

Critical supplies delivered: 561,622 N95 respirators, 623,136 gloves, 107,305 face shields and 617,524 million surgical masks.

- As of May 14, FEMA has obligated \$216.5 million in federal support to Colorado.
- As of May 14, two Battelle N95 decontamination unit are located in the Denver area.
- In support of the White House Task Force's testing initiative, FEMA is supporting the procurement of specimen collection supplies to supplement the supplies states and healthcare providers are procuring from the private market. To date we have supplied 105,200 swabs and 45,000 units of media to Colorado.
- A phased reopening is underway.

Montana
