- **Hundreds of FEMA inspectors** have performed over **231,000** home inspections for survivors who applied for federal disaster assistance.
- **FEMA is providing temporary housing to eligible Hurricane Ian survivors in Charlotte, Collier, DeSoto, Hardee, Lee and Sarasota counties.** FEMA approved Direct Temporary Housing Assistance to provide options for those whose homes are uninhabitable because of the hurricane. FEMA determined that rental assistance is insufficient to meet the housing need in those counties because of a lack of available housing resources. FEMA will notify applicants who are eligible for direct housing. It will take time to transport, permit, install and inspect these units before they are available. Direct Temporary Housing Assistance may be provided for up to 18 months from Sept. 29, 2022, the date of the federal disaster declaration, to March 28, 2024.
- **The U.S. Small Business Administration has approved \$1 billion in low-interest disaster loans** to homeowners, renters and business owners. Business Recovery Centers are located in Collier, Hillsborough, Lee, Manatee and Seminole counties.
- **As of Nov. 28, FEMA's National Flood Insurance Program (NFIP) has received more than 44,700 flood insurance claims and paid more than \$793 million to policyholders.**
- **NFIP policyholders may receive up to \$1,000** to reimburse the purchase of supplies like sandbags, plastic sheeting and lumber. They may also receive up to \$1,000 in storage expenses if they moved insured property. Policyholders should file a claim for flood loss avoidance reimbursement, regardless of whether it was successful in preventing flood damage.
- FEMA is conducting local hiring for more than 300 jobs in Brandon, Fort Myers, Kissimmee, Orlando and Sarasota. These positions are full-time, 120-day appointments that may be extended depending on operational needs. Interested candidates are encouraged to apply online through USAJobs.gov.
