

With Fewer than 20 Days Left, Claimants Urged to Submit Notice of Loss by March 14

Release Date: Mars 4, 2025

SANTA FE, N.M. — The FEMA Hermit's Peak/Calf Canyon Claims Office reminds individuals, businesses, and nonprofits affected by the 2022 Hermit's Peak/Calf Canyon Fire and subsequent flooding that **there are fewer than 20 days left to submit a Notice of Loss (NOL)**. Congress has extended the deadline to March 14, 2025. This is the last day to begin the claims process.

Submitting an NOL is quick and simple. It takes less than 20 minutes and ensures that we can begin review of your claim. **Claimants do not have to provide supporting documentation when submitting an NOL**. Claims will continue to be processed and paid out after March 14.

"If you were impacted by the fire or flooding and haven't yet started your claim, it's crucial that you do so as soon as possible," said Jay Mitchell, Director of Operations for the New Mexico Joint Recovery Office. "If you have questions, concerns, or if you are hesitating, please reach out to our office or attend one of our in-person events, which you can find on our website [News and Events | FEMA.gov](#), before the March 14 deadline."

Additionally, impacted landowners can request a conservation restoration plan through the U.S. Agriculture Department's (USDA) Natural Resources Conservation Service (NRCS). Conservation restoration plans address natural resources losses, such as erosion control, debris removal, fencing, and riparian (river) restoration. These plans, developed by certified planners, provide the costs estimated to repair or replace damaged resources and ensure claimants receive fair and transparent compensation for eligible losses. To receive compensation based on an NRCS plan, both an NOL and NRCS plan request must be submitted by the March 14 deadline.

For more information on restoration plans, please visit <https://www.nrcs.usda.gov/hermits-peak> or one of the following two NRCS Field Office locations:
