

FEMA to Evaluate Readiness of the Commonwealth of Pennsylvania and the State of Maryland

Release Date: April 10, 2024

Emergency preparedness exercise scheduled for the Peach Bottom Atomic Power Station

Philadelphia - The Department of Homeland Security, Federal Emergency Management Agency ([FEMA](#)) will evaluate a Biennial Radiological Emergency Preparedness Exercise for communities around the Peach Bottom Atomic Power Station. The exercise will occur during the week of April 15, 2024 to assess the ability of the Commonwealth of Pennsylvania and the State of Maryland to respond to an emergency at the nuclear facility.

“These drills are held every other year to evaluate government’s ability to protect public health and safety,” said MaryAnn Tierney, Regional Administrator for FEMA Region 3. “We will assess state and local government emergency response capabilities within the 10-mile Emergency Planning Zone within the Commonwealth of Pennsylvania and the State of Maryland.”

Within 90 days, FEMA will send its evaluation to the Nuclear Regulatory Commission ([NRC](#)) for use in licensing decisions. The final report will be available to the public approximately 120 days after the exercise.

FEMA will present preliminary findings of the exercise during a public meeting at 11:00 a.m. on April 19, 2024. The meeting will be conducted at the Lancaster Marriott, 25 South Queen Street, Lancaster, PA, 17603. Planned speakers include representatives from FEMA and the NRC. ????????

At the public meeting, FEMA may request that questions or comments be submitted in writing for review and response. Written comments may also be submitted after the meeting by emailing FEMAR3NewsDesk@fema.dhs.gov or by

FEMA Region III

615 Chestnut Street, 6th Floor

Philadelphia, PA 19106

FEMA created the Radiological Emergency Preparedness (REP) Program to (1) ensure the health and safety of citizens living around commercial nuclear power plants would be adequately protected in the event of a nuclear power plant accident and (2) inform and educate the public about radiological emergency preparedness.

REP Program responsibilities cover only “offsite” activities, that is, state and local government emergency planning and preparedness activities that take place beyond the nuclear power plant boundaries. Onsite activities continue to be the responsibility of the NRC.

Additional information on FEMA’s REP Program is available online at [FEMA.gov/Radiological-Emergency-Preparedness-Program](https://www.fema.gov/Radiological-Emergency-Preparedness-Program).

###

FEMA’s mission is helping people before, during, and after disasters. FEMA Region 3’s jurisdiction includes Delaware, the District of Columbia, Maryland, Pennsylvania, Virginia and West Virginia.
