Site inspector

Duties include:

- Conducting Damage Description and Dimensions based on photographs, site sketches/drawings, and damage assessed during the site inspection.
- Capturing an applicant's claimed damages for all categories of work.
- Completing a Site Inspection Report and scanning all supporting documentation into the Customer Relations Management Tool.
- Reporting progress of activities to immediate supervisor.

To qualify for this position, you must have experience:

- Conducting damage inspections and assessments
- Analyzing building codes and standards
- Utilizing computer programs such as Adobe and Microsoft Office Suite.

Public Assistance Program Delivery Manager

Duties include:

- Tracking and communicating the progress of all projects through the entire program delivery model in coordination with the applicant.
- Engaging program offices as soon as potential opportunities or concerns arise.
- Discussing potential hazard mitigation opportunities with the applicant.
- Hosting key information meetings ensuring recovery priorities and program eligibility requirements are communicated.
- Gathering all required documentation to enable FEMA to write grants so the applicant can be returned to their Pre-Disaster condition as soon as possible.
- Facilitating the delivery of Public Assistance grant funding on behalf of applicants; this includes (but is not limited to) developing the list of damaged sites, scheduling site inspections, summarizing applicant damages, and coordinating requests for information and questions.
- Working with the applicants to resolve their program related needs ensuring projects are processed as efficiently and expeditiously as possible.

To qualify for this position, you must have experience:

- Reviewing federal grant documentation for compliance regulations.
- Developing and presenting correspondence such as reports or briefings.
- Coordinating with federal, state, local and/or tribal partners in support of a disaster recovery mission.
