

Child Care Assistance May Be Available for Oklahoma Disaster Survivors

Release Date: 5? 22, 2023

Oklahoma disaster survivors may be eligible for FEMA Child Care Assistance even if they did not have property damage. FEMA may award payment for Child Care Assistance under its Other Needs Assistance program to those with disaster-caused child care expenses following the April 19-20 tornadoes, straight-line wind and severe weather.

FEMA Child Care Assistance may address disaster-related expenses for eligible households with children who are under the age of 13 or households with children with a disability up to age 21, who need assistance with activities of daily living such as eating, bathing, dressing, toileting, transferring (walking), and continence.

Eligible child care expenses include standard child care service fees and personal assistance services that support activities of daily living for individuals with disabilities.

Child care registration fees and health inventory fees are eligible expenses for applicants who require a new child care service provider.

- A registration fee is a one-time fee when registering an eligible child at an authorized child care provider.
- A health inventory fee is a medical office fee for processing required medical paperwork as part of the registration process.

Child Care Assistance may be available for up to eight weeks per child or household. The maximum amount for child care for Oklahomans is \$1,500 per child.

Child Care Assistance eligibility begins on the date of the incident period for the declared disaster and continues through the end of the 18-month period of assistance unless the time is extended.
