

# FEMA Authorizes Funds to Fight the Gray and Oregon Fires in Washington

---

Release Date: 8? 20, 2023

**BOTHELL, Wash.** - The Federal Emergency Management Agency (FEMA) authorized the use of federal funds to help with firefighting costs for the Gray Fire and the Oregon Fire burning in Spokane County, Washington.

The state of Washington's request for a federal [Fire Management Assistance Grant](#) (FMAG) for the Gray Fire was approved by FEMA Region 10 Administrator Willie G. Nunn on Friday, August 18, 2023, at 8:17 p.m. PT. The Oregon Fire request was approved on Friday, August 18, at 11:16 p.m. PT. Nunn determined that both fires threatened to cause such destruction as would constitute a major disaster. There have now been seven FMAGs declared in 2023 to help fight Washington wildfires.

FMAGs are provided through the President's Disaster Relief Fund and are made available by FEMA to assist in fighting fires that threaten to cause a major disaster. Eligible items can include expenses for field camps; equipment use, repair, and replacement; mobilization and demobilization activities; and tools, materials, and supplies. This authorization makes FEMA funding available to pay 75 percent of the state's eligible firefighting costs under an approved grant for managing, mitigating, and controlling designated fires. These grants do not provide assistance to individual home or business owners and do not cover other infrastructure damage caused by the fire.

In addition to the firefighting funds authorized under these FMAGs, another \$2,450,064 will be available to the State of Washington through the [Hazard Mitigation Grant Program \(HMGP\) Post Fire](#) for the mitigation of future wildfires and related hazards, such as flood after fire or erosion. Some eligible wildfire project types include defensible space measures, ignition-resistant construction, and hazardous fuels reduction. The [Disaster Recovery Reform Act of 2018](#) authorizes FEMA to provide [HMGP Post-Fire](#) funds to eligible states and territories that receive Fire Management Assistance declarations and federally recognized tribes that have land burned within a designated area.
