

VII. COURSE EVALUATION

COURSE EVALUATION

- The Logistics Specialist Training Course is a vital portion of the US&R Program.
- It is essential that the course be of the highest caliber possible in order to ensure standardized procedures among all task forces in the system and to provide the basic materials for providing Logistics Specialist training to the balance of task force personnel nationwide.
- Individual lesson evaluations will be conducted at the conclusion of each classroom presentation and field exercise.
- The overall course evaluation and critique will be held at the conclusion of the course and will be used to refine the Logistics Specialist Training materials and presentations for future courses.

EVALUATION PROCESS

The following process will be used for completing the course evaluation:

- All participants will complete the individual course evaluation form.
- Participants will then break up into their assigned work groups and summarize their comments onto a single group evaluation form.
- A group-appointed spokesperson will present three (3) key issues (strengths and/or weaknesses) during the general evaluation session. Inputs will be captured for review.
- The course coordinator will consolidate all comments/suggestions and develop a summary matrix.
- The course will be modified, as appropriate, with FEMA approval.
