

President Trump Declares Major Disaster for Oregon

Release Date: January 25, 2017

WASHINGTON, D.C. – The Federal Emergency Management Agency (FEMA) announced that federal disaster assistance has been made available to the state of Oregon to supplement state, tribal, and local recovery efforts in the area affected by a severe storm and flooding during the period of December 14-17, 2016.

Federal funding is available to state, tribal, and eligible local governments and certain private nonprofit organizations on a cost-sharing basis for emergency work and the repair or replacement of facilities damaged by a severe storm and flooding in Josephine and Lane counties.

Federal funding is also available on a cost-sharing basis for hazard mitigation measures statewide.

Dolph A. Diemont has been named as the Federal Coordinating Officer for federal recovery operations in the affected area. Diemont said additional designations may be made at a later date if requested by the state and warranted by the results of further damage assessments.
