

FEMA Awards Monroe County Nearly \$1.3 Million for Hurricane Irma Expenses

Release Date: November 1, 2019

ORLANDO, Fla. – FEMA has approved \$1,278,662 for the State of Florida to help Monroe County defray the costs of responding to Hurricane Irma under FEMA's Public Assistance Program.

FEMA funds will reimburse the county for emergency measures enacted between Nov. 29, 2017 and Apr. 18, 2018. During that time period, steps were taken to protect public health, life and safety by providing mold testing and remediation for 21 public facilities throughout the county. Since remediation could possibly result in demolition activities, asbestos testing was also performed in some locations.

Funding for this Public Assistance (PA) project is authorized under Sections 403 of the Robert T. Stafford Act for Florida to cover Hurricane Irma-related expenses, reimbursing eligible applicants for the cost of debris removal; life-saving emergency protective measures; and the repair, replacement or restoration of disaster-damaged facilities like buildings, roads and utilities.

FEMA's Public Assistance grant program is an essential source of funding for communities recovering from a federally declared disaster or emergency. The Florida Division of Emergency Management works with FEMA during all phases of the PA program and conducts final reviews of FEMA-approved projects.

Applicants work directly with FEMA to develop project worksheets and scopes of work. Following approvals by FEMA and FDEM, FEMA obligates funding for the project.

FEMA's Public Assistance program provides grants to state, tribal, and local governments, and certain types of private non-profit organizations including some houses of worship, so that communities can quickly respond to and recover from major disasters or emergencies.

The federal share for Public Assistance projects is not less than 75 percent of the eligible cost. The state determines how the non-federal share of the cost of a

project (up to 25 percent) is split with the sub-recipients like local and county governments.
