

# Revised Preliminary Flood Maps for Nueces County, Texas are Ready for Public View

---

**Release Date: October 9, 2020**

**DENTON, Texas** — New revised Flood Insurance Rate Maps (FIRMs) are now available for review by residents and business owners in the cities of Bishop and Corpus Christi. Maps of unincorporated areas of Nueces County are also available. Renters and property owners are encouraged to review the latest information to learn about local flood risks and potential future flood insurance requirements.

For this Physical Map Revision, the Flood Insurance Rate Maps (FIRMs) serve multiple purposes, including defining Special Flood Hazard Areas (SFHAs) and setting rates for flood insurance. SFHAs are areas at high risk for flooding. Communities and residents can use the information to make informed decisions about building, development, and flood insurance.

FEMA Region 6 Administrator Tony Robinson states, “Flooding is the #1 natural disaster in the United States and most homeowner’s insurance policies do not cover the effects of flooding. I encourage everyone to purchase flood insurance because more than 25 percent of flood damages occur outside the Special Flood Hazard Area and policies are typically less expensive.”

Review the preliminary flood maps by visiting your local floodplain administrator (FPA). A FEMA Map Specialist can help identify your community FPA and is available by telephone at 1-877-FEMA-MAP (1-877-336-2627) or by email at [FEMAMapSpecialist@riskmapcds.com](mailto:FEMAMapSpecialist@riskmapcds.com).

The preliminary maps may also be viewed online at the following locations:

- The Flood Map Change Viewer at <http://msc.fema.gov/fmcv>
- The FEMA Map Service Center at <http://msc.fema.gov/portal>
