

Fiscal Year 2022 Port Security Grant Program Fact Sheet

Release Date: May 3, 2022

In fiscal year (FY) 2022, the Department of Homeland Security is providing \$100 million to promote sustainable, risk-based efforts to protect critical port infrastructure from acts of terrorism.

Overview

The [FY 2022 Port Security Grant Program](#) is one of four grant programs that constitute the DHS/Federal Emergency Management Agency's focus on transportation infrastructure security activities. These grant programs are part of a comprehensive set of measures authorized by Congress and implemented by DHS to help strengthen the nation's critical infrastructure against potential terrorist attacks. The PSGP provides funds to state, local, territorial and private sector partners to support increased port-wide risk management and protect critical surface transportation infrastructure from acts of terrorism.

Funding

In FY 2022, the total amount of funds under PSGP is \$100 million. The FY 2022 program is focused on supporting increased maritime cybersecurity, port-wide maritime security risk management, enhancing maritime domain awareness, supporting maritime security training and exercises, and maintaining or reestablishing maritime security mitigation protocols that support port recovery and resilience capabilities. PSGP investments must address U.S. Coast Guard and Area Maritime Security Committee identified vulnerabilities in port security.

Eligibility

All entities subject to an Area Maritime Security Plan, as defined by 46 U.S.C. § 70103(b), may apply for PSGP funding. Eligible applicants include, but are not

limited to, port authorities, facility operators, and state, territorial, and local government agencies. A facility operator owns, leases, or operates any structure or facility of any kind located in, on, under, or adjacent to any waters subject to the jurisdiction of the United States. Examples of facility operators include, but are not limited to, terminal operators, ferry systems, bar/harbor pilots, and merchant's exchanges.

Ferry systems that elect to participate under the FY 2022 PSGP are not considered for funding under the FY 2022 Transit Security Grant Program (TSGP). Likewise, any ferry system that elects to participate in the FY 2022 TSGP is not considered for funding under the FY 2022 PSGP.

Please refer to the FY 2022 PSGP funding notice for additional information on eligibility.

Funding Guidelines

PSGP recipients will be selected for funding through a competitive review process as outlined in the FY 2022 PSGP funding notice. Applicants will receive a 20% increase to their scores for addressing one or more of the following National Priority Areas in their Investment Justifications:

1. Enhancing cybersecurity; and
2. Enhancing the protection of soft targets and crowded places.

Projects submitted by a public sector applicant or projects otherwise certified by the U.S. Coast Guard Captain of the Port as having a port-wide benefit will have their final scores increased by a multiplier of 10%.
