

FEMA Fire Management Assistance Granted for the Mosquito Fire

Release Date: September 9, 2022

OAKLAND, Calif. – The Federal Emergency Management Agency's (FEMA) regional administrator authorized the use of federal funds to assist the state of California in combatting the Mosquito Fire burning in Placer and El Dorado counties.

On Sept. 9, the state of California submitted a request for a Fire Management Assistance Grant (FMAG). At the time of the request, the fire threatened approximately 3,600 homes in and around Foresthill, CA. The fire also threatened a high school, middle school, elementary school, Placer County Community Center, a Placer County Sheriff substation, Cal Fire Station 11, two hydro power plants, Foresthill Water Treatment Plant, Foresthill Fire Protection District, Sugar Pine Dam and Reservoir, and two public radio towers for fire and law enforcement communications.

FMAGs provide federal funding for up to 75 percent of eligible firefighting costs. The Disaster Relief Fund provides allowances for FMAGs through FEMA to assist in fighting fires that threaten to become a greater incident.

Eligible costs covered by FMAGs can include expenses for field camps, equipment use, materials, supplies and mobilization, and demobilization activities attributed to fighting the fire.

For more information on FMAGs, visit fema.gov/assistance/public/fire-management-assistance.
