

FEMA Awards Over \$3.5 Million to Massachusetts for COVID-19 Operating Costs

Release Date: February 1, 2023

BOSTON – The Federal Emergency Management Agency will be sending more than \$3.5 million to the Commonwealth of Massachusetts to reimburse the Massachusetts Department of Transportation for the cost of steps taken to protect its staff and the public during the COVID-19 pandemic.

The \$3,534,633 Public Assistance grant will reimburse MASSDOT for the cost of purchasing plexiglass sneeze guard barriers and signage, disinfection supplies, medical supplies, storage, and personal protective equipment (PPE) such as gloves, masks, respirators, and face shields between April 2020 and March 2022.

The department also contracted for services to disinfect facilities and vehicles.

“FEMA is pleased to be able to assist MASSDOT with these costs,” said FEMA Region 1 Regional Administrator Lori Ehrlich. “Providing resources for our partners on the front lines of the pandemic fight is critical to their success, and to our success as a nation.”

FEMA’s Public Assistance program is an essential source of funding for states and communities recovering from a federally declared disaster or emergency.

So far, FEMA has provided more than \$1.5 billion in Public Assistance grants to Massachusetts to reimburse the commonwealth for pandemic-related expenses.
