FEMA operates Disaster Recovery Centers based on where they are needed most. FEMA works closely with state and municipal partners in determining those sites. Once a location begins to see a significant drop in application visits, FEMA and the state coordinate on determining the closing date.

All centers are accessible to people with disabilities and access and functional needs and are equipped with assistive technology equipment. If you need a reasonable accommodation or sign language interpreter, please call 833-285-7448 (press 2 for Spanish).

Representatives from the U.S. Small Business Administration will also be at the center to explain how to apply for SBA's low-interest disaster loans for homeowners, renters, businesses, and private nonprofits, and provide information about rebuilding to make homes more disaster resistant.

You don't need to visit a DRC to apply for FEMA assistance. To apply without visiting a center, call the FEMA Helpline at 800-621-3362, go online to [DisasterAssistance.gov](https://DisasterAssistance.gov) or download the [FEMA App](#). If you use a relay service such as video relay service (VRS), captioned telephone service or others, give FEMA your number for that service when you apply. The deadline to apply for federal assistance is Sept. 12, 2023.
