

FEMA May Reimburse for Tools and Equipment

Release Date: Jul 10, 2024

If you are self-employed, FEMA may be able to provide funds to repair or replace disaster-damaged tools and equipment required for your work. This help is available to a wide range of applicants, including farmers, artists, musicians, mechanics and many other occupations. FEMA may also be able to help if you are an employee and you lost tools or equipment required for your job and not reimbursable by your employer.

Eligible Work Tools

Tools and equipment required for self-employment or required, but not provided, by an employer. Examples of tools include:

- Computers required by an employer or for self-employment when you are responsible for the replacement of the computer.
- Tools and equipment such as power tools, art materials, musical instruments, tractors, utility vehicles, lawnmowers, ladders, etc.
- Uniforms required for work when you are responsible for replacement of the uniforms.

This assistance may be available if the items were damaged by the New Mexico South Fork and Salt Fires and flooding that began June 17, and you do not have another working item that can meet this need and the loss of the item was not covered by insurance.

Required Documentation

To be eligible for self-employment assistance, you must provide documentation that proves you're self-employed, such as federal tax return documents, and must meet the eligibility criteria for FEMA assistance.

Self-employed New Mexico residents should provide FEMA with:

- Insurance documents for all potential coverages and benefits
