

FEMA Authorizes Funds to Fight Retreat Fire in Washington

Release Date: July 26, 2024

BOTHELL, Wash. - The Federal Emergency Management Agency (FEMA) authorized the use of federal funds to help with firefighting costs for the Retreat Fire burning in Yakima County, Washington.

The state of Washington's request for a federal [Fire Management Assistance Grant](#) (FMAG) was approved by FEMA Region 10 Administrator Willie G. Nunn on Friday, July 26, 2024, at 12:27 a.m. PT. He determined that the Retreat Fire threatened to cause such destruction as would constitute a major disaster. This is the fourth FMAG declared in 2024 to help fight Washington wildfires.

At the time of the state's request, the wildfire threatened homes in and around the City of Tieton, community of Cowiche, and Town of Naches. The fire also threatened multiple state highways, local cemeteries, churches, schools, recreation areas, local cultural and historical hunting and gathering grounds of the Yakama Nation, power lines, the Rimrock Dam and the Yakima Tieton Irrigation District.

FMAGs are provided through the President's Disaster Relief Fund and are made available by FEMA to assist in fighting fires that threaten to cause a major disaster. Eligible items can include expenses for field camps; equipment use, repair and replacement; mobilization and demobilization activities; and tools, materials and supplies. This authorization makes FEMA funding available to pay 75 percent of eligible firefighting costs under an approved grant for managing, mitigating, and controlling designated fires. These grants do not provide assistance to individual home or business owners and do not cover other infrastructure damage caused by the fire.

In addition to the firefighting funds authorized under this FMAG, another \$1,313,482 will be available to Washington through the [Hazard Mitigation Grant Program \(HMGP\) Post Fire](#) for the mitigation of future wildfires and related hazards, such as flood after fire or erosion. Some eligible wildfire project types

FEMA

include defensible space measures, ignition-resistant construction and hazardous fuels reduction. The [Disaster Recovery Reform Act of 2018](#) authorizes FEMA to provide [HMGP Post-Fire](#) funds to eligible states and territories that receive Fire Management Assistance declarations and federally recognized tribes that have land burned within a designated area.
