

FEMA Fire Management Assistance Granted for the Boyles Fire

Release Date: September 9, 2024

OAKLAND, Calif. – The Federal Emergency Management Agency’s (FEMA) Region 9 Administrator authorized the use of federal funds on September 8 at 7:03 p.m. PDT / 10:03 p.m. EDT to assist the state of California in combating the Boyles Fire burning in Lake County.

On September 8, the state of California submitted a request for a Fire Management Assistance Grant (FMAG). At the time of the request, the fire threatened approximately 4,000 homes in Clearlake City, CA, with a population of 16,000. One hundred percent of the threatened homes are primary residences.

The fire started on September 8, 2024, and had burned more than 76 acres of state land.

FMAGs provide federal funding for up to 75 percent of eligible firefighting costs. The Disaster Relief Fund provides allowances for FMAGs through FEMA to assist in fighting fires that threaten to become major incidents.

Eligible costs covered by FMAGs can include expenses for field camps, equipment use, materials, supplies and mobilization and demobilization activities attributed to fighting the fire. For more information on FMAGs, visit fema.gov/assistance/public/fire-management-assistance.
