

Preliminary Damage Assessment Report

Georgia – Hurricane Michael FEMA-4400-DR

Declared October 14, 2018

On October 12, 2018, Governor Nathan Deal requested an expedited major disaster declaration due to Hurricane Michael during the period of October 9-23, 2018. The Governor requested a declaration for Individual Assistance for 16 counties, Public Assistance for 31 counties, and Hazard Mitigation statewide. This event was of the severity and magnitude that the need for supplemental Federal assistance was determined to be necessary prior to the completion of joint Federal, State, and local government Preliminary Damage Assessments (PDAs). Per 44 C.F.R. § 206.33(d) and § 206.36(d), the requirement for a joint PDA may be waived for those incidents of such unusual severity and magnitude that formal field damage assessments are not required to establish the need for supplemental Federal assistance under the Stafford Act.¹

On October 14, 2018, President Trump declared that a major disaster exists in the State of Georgia. This declaration made Individual Assistance requested by the Governor available to affected individuals and households in Baker, Decatur, Dougherty, Early, Miller, and Seminole Counties. This declaration also made assistance for debris removal and emergency protective measures (Categories A and B), including direct federal assistance available to state and eligible local governments on a cost-sharing basis for Baker, Bleckley, Burke, Calhoun, Colquitt, Crisp, Decatur, Dodge, Dooly, Dougherty, Early, Emanuel, Grady, Houston, Jefferson, Jenkins, Johnson, Laurens, Lee, Macon, Miller, Mitchell, Pulaski, Seminole, Sumter, Terrell, Thomas, Treutlen, Turner, Wilcox, and Worth Counties. Finally, this declaration also made Hazard Mitigation Grant Program assistance requested by the Governor available for hazard mitigation measures statewide.²

¹ The Preliminary Damage Assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor’s request for a major disaster or emergency declaration, and by the President in determining a response to the Governor’s request (44 CFR § 206.33).

² When a Governor’s request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA’s regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

³ Degree of damage to impacted residences:

- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

⁴ By law, Federal disaster assistance cannot duplicate insurance coverage. 42 U.S.C. § 5155 and 44 C.F.R. § 206.48(b)(5).

⁵ Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance. 44 C.F.R. § 206.48(b)(3).

⁶ Ibid. 44 C.F.R. § 206.48(b)(3).
