

Fiscal Year 2023 Flood Mitigation Assistance (FMA) and Building Resilient Infrastructure and Communities (BRIC) Notices of Funding Opportunities For Tribal Governments

Hazard Mitigation Assistance Grants | November 2, 2023

FEMA

Agenda

- Fiscal Year 2023 Flood Mitigation Assistance (FMA) and Building Resilient Infrastructure and Communities (BRIC) Funding Opportunities
- FMA-Specific Changes
- BRIC-Specific Changes
- How to Apply: FEMA Grants Outcomes (FEMA GO)
- Program Support Materials and Resources

FMA and BRIC FY 2023 Funding Opportunities

Overview

Applicants and Subapplicants Eligibility

FEMA

Eligible Activities

View Eligible Activities:

Projects Must:

- Be cost-effective.
- Reduce/eliminate risk and damage from future natural disasters.
- Meet the latest consensus codes (i.e., 2018 or 2021 international building code).
- Align with the hazard mitigation plan.
- Meet all environmental and historic preservation requirements.

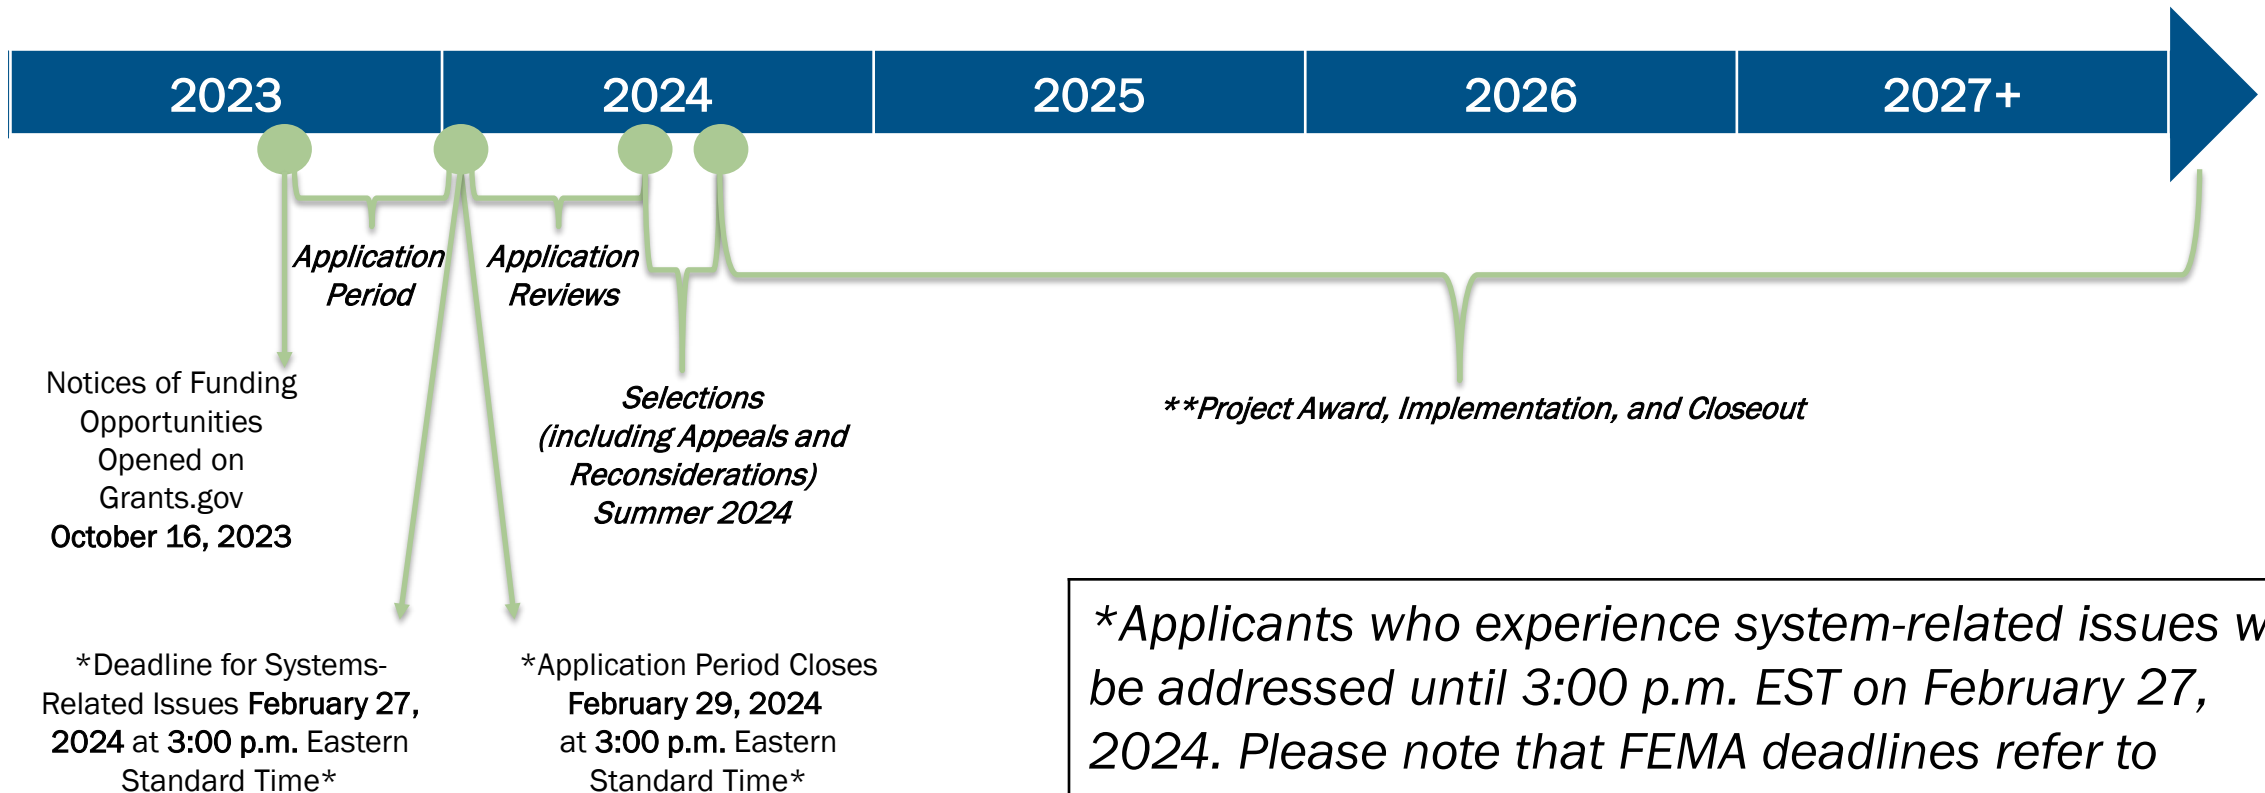

Considerations When Applying to Either Program

- Justice40 Initiative - Executive Order (EO) 14008
- Community Disaster Resilience Zones
- Build America, Buy America Act (BABAA)
- Benefit-Cost Analysis (BCA)
- Phased Projects
- Eligible Activities
- Key Program Changes for FMA and BRIC in Fiscal Year 2023

******Consider Applying to Both Programs to Maximize Success******

Application Cycle and Funding Deadlines

*Applicants who experience system-related issues will be addressed until 3:00 p.m. EST on February 27, 2024. Please note that FEMA deadlines refer to application deadlines for the applicants. Subapplicants should consult with their applicant agency to confirm subapplication deadlines to the applicant if applicable.

**This timeline may vary by project type

Justice40 Initiative - Executive Order (EO) 14008

- The Justice40 Initiative will aim to deliver at least 40% of the overall benefits of climate, clean energy, affordable and sustainable housing, clean water and other investments to disadvantaged communities.
- A disadvantaged community, also referred to as a Justice40 Community, will be identified using version 1.0 of the [Climate and Economic Justice Screening Tool \(CEJST\)](#).

Explore the map

Share data sources with CEQ

Census tracts that are overburdened and underserved are highlighted as being disadvantaged on the map. Federally Recognized Tribes, including Alaska Native Villages, are also considered disadvantaged communities.

Zooming in and selecting shows information about each census tract.

Get the data ↓
Download the data with documentation and shapefile from the [downloads](#) page.

How to use the map:
Zoom in +, search 🔍, or locate yourself 📍 and select to see information about any census tract.

Things to know:
The tool uses census tracts 🗺️. Census tracts are a small unit of geography. They generally have populations 🧑 of between 1,200 - 8,000 people.
Communities that are disadvantaged live in tracts

Justice40 Communities are considered disadvantaged if they are in census tracts that meet the thresholds for at least one of the tool's categories of burden, or if they are on lands within the boundaries of a federally recognized tribal government. In addition, census tracts that are completely surrounded by disadvantaged communities are also considered disadvantaged if they meet an adjusted low- income threshold (at or above the 50th percentile). Justice40 Communities have been marginalized by society, overburdened by pollution, and/or underserved by infrastructure and other basic services.

Community Disaster Resilience Zones

- The Community Disaster Resilience Zones Act will build disaster resilience across the nation by creating and designating resilience zones which identifies disadvantaged communities most at-risk to natural hazards.
- Community Disaster Resilience Zones will build disaster resilience across the nation by driving federal, public and private resources to the most at-risk and in-need jurisdictions.
- For a complete listing of FEMA identified Community Disaster Resilience Zones, refer to [Community Disaster Resilience Zones | FEMA.gov](https://www.fema.gov/community-disaster-resilience-zones).

Build America, Buy America Act (BABAA)

- Recipients and subrecipients must comply with the Build America, Buy America Act (BABAA). None of the funds provided may be used for a project for infrastructure unless the iron and steel, manufactured products, and construction materials used in that infrastructure are produced in the United States.
- FEMA's Buy America Preference in FEMA Financial Assistance Programs for Infrastructure - [FEMA Interim Policy #207-22-0001](#) discusses domestic preference.
- **Please note:** BABAA requirements apply to new awards made on or after January 1, 2023, as well as new funding FEMA obligates to existing awards or through renewal awards where the new funding is obligated on or after January 1, 2023.

Benefit-Cost Analysis (BCA)

FEMA requires all hazard mitigation projects to be cost-effective. Applicants and subapplicants may use one of three standard approaches:

- **Streamlined Determination Method:**

- For projects with a total cost of less than \$1,000,000 the subapplicant may provide a narrative that includes qualitative and quantitative data demonstrating the benefits and cost-effectiveness of the project.
- Pre-calculated benefits are available for some project types, including acquisitions, elevations, wind retrofits, tornado safe rooms, hospital generators, and post-wildfire mitigation.
- Applicants and subapplicants may still opt to use a BCA to show cost-effectiveness of a project.

Benefit-Cost Analysis (BCA) (Cont.)

■ Assistance:

- FEMA will review hazard mitigation project subapplications during the pre-award process that are competitive and otherwise eligible for selection.
 - For **BRIC**, a BCA or Benefit-Cost Ratio (BCR) of at least 1.0 is not required at time of application for Federally Recognized Tribes, Economically Disadvantaged Rural Communities, and projects primarily benefitting Community Disaster Resilience Zones.
 - For **FMA**, Federally Recognized Tribes, small and improvised communities and communities in Community Disaster Resilience Zones can submit subapplications without completing a BCA.

■ Discount Rate Adjustment:

- If a streamlined cost-effectiveness determination method does not apply, a BCA is required to validate cost-effectiveness. FEMA has established a set discount rate of 3% to be used in a BCA for hazard mitigation projects for the FY 2023 BRIC and FMA cycles.

FEMA

Phased Projects

- **Who should apply?**
 - Communities requesting federal funding for developing and evaluating projects without assuming the risk of not being selected.
 - This is beneficial for communities that do not have the upfront capital needed to start project development. (Hydrologic and Hydraulic [H&H] studies, Benefit-Cost Analysis [BCA] etc.)
- **What is the benefit?**
 - Focuses on breaking down complex projects into manageable phases.
 - Allows for the development of all the technical and environmental information, including design, engineering studies and permitting, before issuing a full construction approval.

An aerial photograph of a coastal town, likely in New England, featuring a large marina filled with numerous sailboats and yachts. The town is built on a hillside, with a mix of residential houses and larger commercial buildings. A prominent church with a tall steeple is visible on the right side. The surrounding area is densely forested with green trees. The entire image is overlaid with a semi-transparent blue filter.

Flood Mitigation Assistance (FMA)

Flood Mitigation Assistance (FMA)

Legislative Authorities

- National Flood Insurance Reform Act of 1994
- Biggert-Waters Flood Insurance Reform Act of 2012
- Infrastructure Investment and Jobs Act (IIJA) of 2021

FMA Program Highlights:

- The program educates or eliminates the risk of repetitive flood damage to buildings insured under the National Flood Insurance Program (NFIP), and within NFIP participating communities
- Is Nationally competitive; offered on an annual application cycle.
- Appropriated annually with \$175 million since 2016.
- IIJA more commonly known as the Bipartisan Infrastructure Law provides \$3.5 billion over 5 years, or \$700 million per year for Fiscal Year 2022-2026.

Flood Mitigation Assistance Eligibility Requirements

- Subapplicants must participate in the National Flood Insurance Program (NFIP). They cannot be on probation or suspended.
- All structures included in the project subapplications must be insured under the NFIP (**before, during, and after** the mitigation).
- Mitigation Reconstruction
 - Structures listed in the subapplication must have a National Flood Insurance Program (NFIP) policy in effect at the Flood Mitigation Assistance (FMA) application start date.
 - It must be maintained for the life of the structure regardless of the flood zone.
- Acquisition/Demolition
 - Structures listed in the subapplication must have an NFIP policy in effect at the FMA application start date.
 - It must be maintained until the transfer of property occurs regardless of flood zone.

Verify at [Community Status Book | FEMA.gov](https://www.fema.gov/communitystatus)

Flood Mitigation Assistance Key Changes for Fiscal Year 2023

- Funding allocations – increase in Localized Flood Risk Reduction Projects.
- Mitigation Reconstruction cap of \$220,000 federal share per structure, previously \$150,000.
- Bipartisan Infrastructure Law federal cost share using the following three CDC Social Vulnerability Index (SVI) themes: Socioeconomic Status, Household Characteristics, and Housing Type and Transportation.
- Changes to Final Priority Scoring Criterion, tiebreakers, and Individual Flood Mitigation Projects prioritization and thresholds.
 - Properties meeting FMA and NFIP definition of Severe Repetitive Loss (SRL) and Repetitive Loss (RL) will also be recognized for project prioritization.
 - Individual Flood Mitigation Project prioritization shifted to 75% FMA and NFIP SRL and RL, previously 50%.
 - Equity data measure shift from CDC Social Vulnerability Index (SVI) to [Climate and Economic Justice Screening Tool \(CEJST\)](#)/Justice40 Communities & Community Disaster Resilience Zones.

Available Funding

**\$800
MILLION**

**TOTAL AVAILABLE
FMA FUNDING
IN FISCAL YEAR
2023**

Allocated up to **\$60 MILLION**

**1 Capability and Capacity-
Building (C&CB) Activities**

- › Mitigation Plans
- › Technical Assistance by States to Communities
- › Project Scoping
- › Additional C&CB Activities

Allocated up to **\$520 MILLION**

**2 Localized Flood Risk
Reduction Projects**

At least **\$220 MILLION**

**3 Individual Flood
Mitigation Projects**

Note: Allocated funding amounts may be reduced by up to 10 percent due to the funding of state, tribal, and local management costs.

FEMA

Capability and Capacity Building Activities - Up to \$60 million

- Up to \$60 million that support Capability and Capacity Building (C&CB) Activities efforts to develop future Localized Flood Risk Reduction Projects and/or Individual Flood Mitigation Projects that will subsequently reduce flood claims against the National Flood Insurance Program (NFIP).
- **Activity cap per subapplication:**
 - **\$100,000** for Mitigation Plans per Applicant with maximums of:
 - **\$50,000** for state mitigation planning
 - **\$25,000** for local mitigation planning
 - **\$50,000** for Technical Assistance by States to Communities
 - **\$900,000** for Project Scoping
 - **\$300,000** for Additional C&CB Activities (Partnership Development to Conduct Eligible Mitigation Activities, Enhancing Local Floodplain Management, Severe Repetitive Loss (SRL)/Repetitive Loss (RL) Strategy Development, and other eligible C&CB Activities
 - For example, other eligible C&CB Activities may include Substantial Damage Procedures

Localized Flood Risk Reduction Projects - Up to \$520 million

- Up to **\$520 million** of Localized Flood Risk Reduction Projects that address community flood risk for the purpose of reducing NFIP flood claim payments.
 - **\$50 million** activity cap per subapplication.

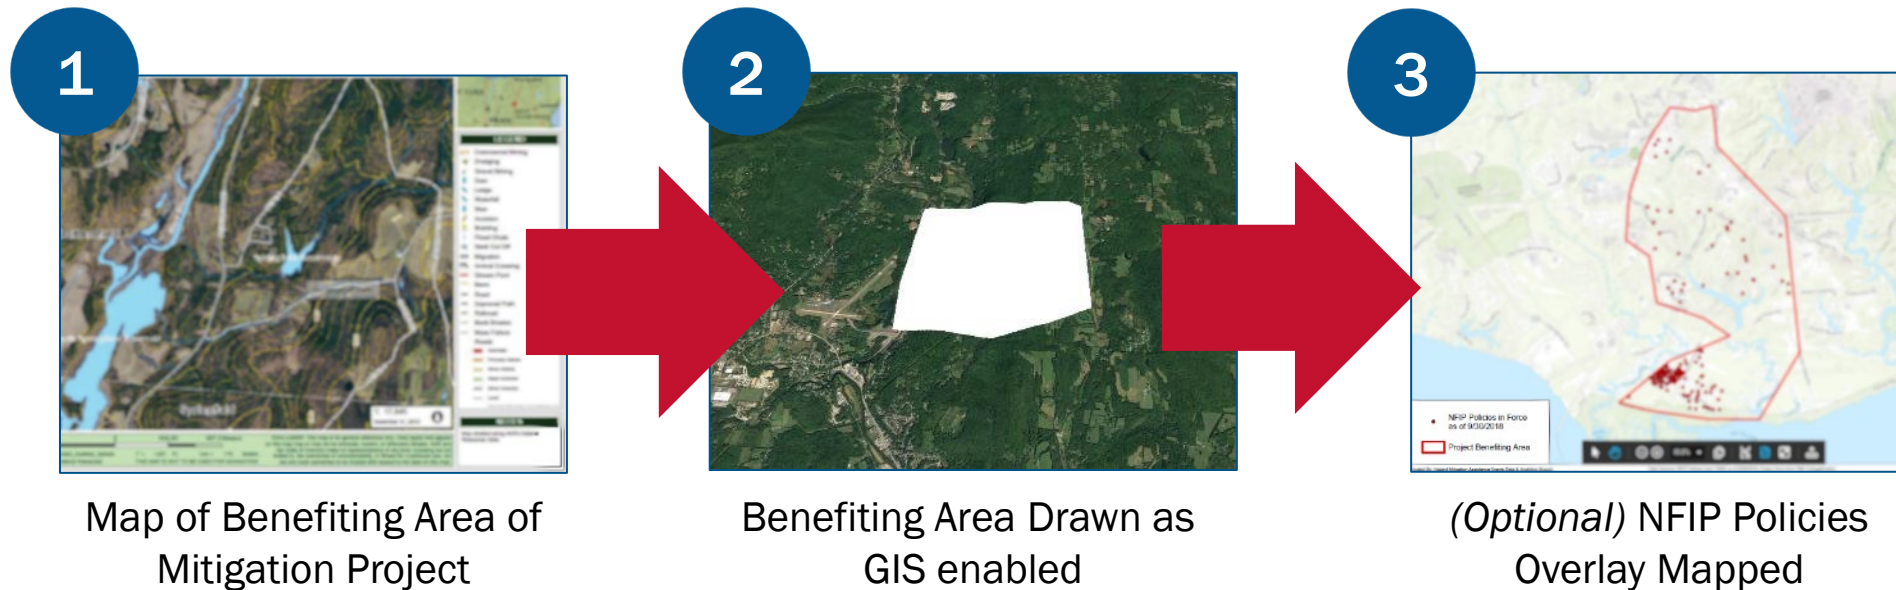

Eligible projects include, but are not limited to:

- Floodwater storage and diversion.
- Floodplain, wetland, marsh, riverine and coastal restoration and protection.
- Stormwater management.
- Localized flood control projects with co-benefits to other hazards, as well as social and environmental benefits.

Localized Flood Risk Reduction Projects - Benefitting Area Maps

- Localized Flood Risk Reduction Projects must demonstrate that the proposed project benefits NFIP insured properties. Applications should include a map with associated geospatial file(s) delineating: the proposed project area or footprint boundary, and the benefiting area which is aligned with flood modeling such as a Hydrologic and Hydraulic study.

C&CB and Localized Flood Risk Reduction Projects – Federal Cost Shares

Capability and Capacity Building (C&CB) Activities Federal Cost Shares

Up to 90 percent federal cost share funding if the **average Centers for Disease Control and Prevention (CDC) Social Vulnerability Index (SVI) is not less than 0.5001 for the benefitting area(s)*** substantiated by a benefitting area map, and the activity is funded by the Bipartisan Infrastructure Law (BIL)

BIL
Federal Cost Share

Up to 75 percent federal cost share funding if a higher federal cost share is not available (for NFIP-insured properties that do not meet the conditions for the BIL cost share)

General
Federal Cost Share

Localized Flood Risk Reduction Projects Federal Cost Shares

Up to 90 percent federal cost share funding if the **average Centers for Disease Control and Prevention (CDC) Social Vulnerability Index (SVI) is not less than 0.5001 for the project benefitting area containing NFIP-insured*** properties, and the activity is funded by the Bipartisan Infrastructure Law (BIL)

BIL
Federal Cost Share

Up to 75 percent federal cost share funding if a higher federal cost share is not available (for NFIP-insured properties that do not meet the conditions for the BIL cost share)

General
Federal Cost Share

* FEMA will determine the CDC SVI score using the following three SVI themes: Socioeconomic Status, Household Characteristics, and Housing Type and Transportation.

* FEMA will determine the CDC SVI score using the following three SVI themes: Socioeconomic Status, Household Characteristics, and Housing Type and Transportation.

Individual Flood Mitigation Projects – at least \$220 million

- At least \$220 million of Individual Flood Mitigation Projects that mitigate the risk of flooding to individual NFIP-insured structures and buildings.
 - No activity cap per subapplication.

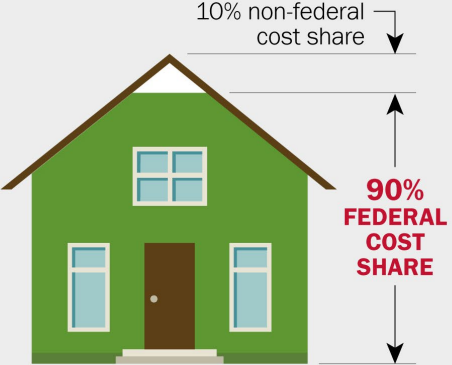

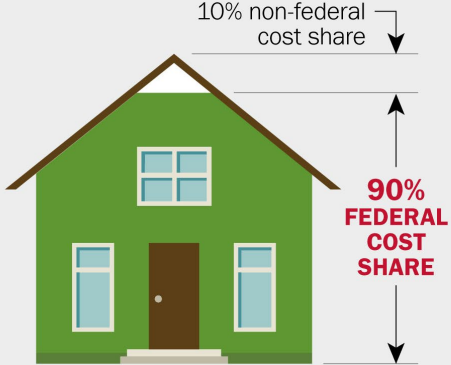

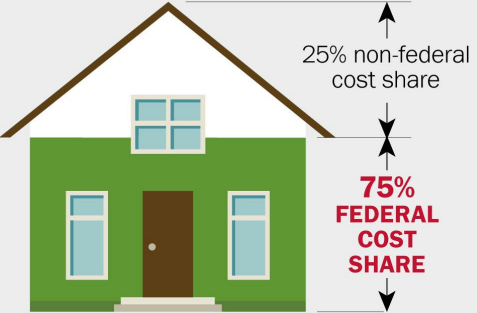

Eligible projects include, but are not limited to:

- Acquisition and Structure Demolition/Relocation
- Structure Elevation
- Mitigation Reconstruction (up to \$220,000 federal share)
- Wet Floodproofing of Non-Residential Structures
- Dry Floodproofing of Non-Residential Structures
- Dry Floodproofing of Historic Residential Structures

FEMA

Individual Flood Mitigation Projects – Federal Cost Shares

 <p>Up to 100 percent federal cost share funding for FMA defined Severe Repetitive Loss (SRL) (B)(i) or (B)(ii) properties in 42 U.S.C. § 4104c(h)(3)</p>	 <p>Up to 90 percent federal cost share funding for FMA defined Repetitive Loss (RL) properties in 42 U.S.C. § 4121(a)(7)</p>	 <p>Up to 90 percent federal cost share funding for each National Flood Insurance Program (NFIP)-insured property located within a census tract with a Centers for Disease Control and Prevention (CDC) Social Vulnerability Index (SVI) score not less than 0.5001,* and the activity is funded by the Bipartisan Infrastructure Law (BIL)</p>	 <p>Up to 75 percent federal cost share funding if a higher federal cost share is not available (for NFIP-insured properties that do not meet the conditions for SRL, RL, or BIL cost share)</p>
<p>FMA defined SRL Federal Cost Share</p>	<p>FMA defined RL Federal Cost Share</p>	<p>BIL Federal Cost Share</p>	<p>General Federal Cost Share</p>
<p>* FEMA will determine the CDC SVI score using the following three SVI themes: Socioeconomic Status, Household Characteristics, and Housing Type and Transportation.</p>			

Fiscal Year 2023 Project and Activity Types

Individual Flood Mitigation Projects
Elevate National Flood Insurance Program (NFIP) homes to mitigate future flood risks

Capability and Capacity Building (C&CB) Activities
Cultivate partnerships to plan for future whole-community flood mitigation initiatives

Localized Flood Risk Reduction Projects
Create a sustainable living shoreline

Capability and Capacity Building (C&CB) Activities
Develop potential Individual Flood Mitigation Projects

Localized Flood Risk Reduction Projects
Restore natural floodplain function

Localized Flood Risk Reduction Projects
Design nature-based solutions like a rain garden

FEMA

An aerial photograph of a coastal town, likely in New England, featuring a harbor filled with numerous sailboats and yachts. The town is built on a hillside, with a prominent church steeple visible on the right. The entire image is overlaid with a semi-transparent blue filter.

Building Resilient Infrastructure and Communities (BRIC)

Applying as an Applicant

- ✓ Develop an application and subapplication
- ✓ BRIC Tribal Set-Aside
- ✓ ***New*** Tribal Building Code Plus-Up
- ✓ Disaster declaration requirement
- ✓ Management costs (subapplication and application)
- ✓ Potentially eligible for Economically Disadvantaged Rural Community or Community Disaster Resilience Zone designation
- ✓ Must have a FEMA-approved Hazard Mitigation Plan by the application deadline and at the time of obligation of grant funds for mitigation projects

Applying as a Subapplicant

- ✓ Develop a subapplication
- ✓ State/Territory Allocation and Building Code Plus-Up, National Competition
- ✓ Management costs (subapplication)
- ✓ Potentially eligible for Economically Disadvantaged Rural Community designation
- ✓ Must have a FEMA-approved Tribal Hazard Mitigation Plan by the application deadline and at the time of obligation of grant funds for mitigation projects other than:
 - ✓ 1) mitigation planning and planning related activities,
 - ✓ 2) partnerships, and
 - ✓ 3) building codes

Fiscal Year 2023 BRIC Priorities

- Incentivize natural hazard risk reduction activities that mitigate multi-hazard risks to public infrastructure and disadvantaged communities as referenced in EO 14008.
- Incorporate nature-based solutions. This includes those designed to reduce carbon emissions.
- Enhance climate resilience and adaptation.
- Increase funding to applicants that facilitate the adoption and enforcement of the newest editions of building codes.
- BRIC encourages mitigation projects that meet multiple program priorities.

Available Funding

\$1 billion is available for the BRIC program in FY 2023.

- **State/Territory Allocation: \$112 million (up to \$2 million per applicant).**
 - A total of \$1.5 million must be used for capability- and capacity-building activities per applicant.
 - A minimum of \$400,000 must be used on any combination of capability- and capacity-building activities and projects primarily benefiting Community Disaster Resilience Zones.
- **Building Code Plus-Ups Added**
 - State/Territory Building Code Plus-Up: \$112 million (up to \$2 million per applicant).
 - Tribal Building Code Plus-Up: \$25 million
- **Tribal Set-Aside: \$50 million**
 - The combined cost of the applicant's capability- and capacity-building activities under the Tribal Set-Aside must not exceed \$2 million per applicant.
 - Up to \$1 million may be used for hazard mitigation planning and planning-related activities per applicant.
- **National Competition for Hazard Mitigation Projects: \$701 million (\$50 million per subapplication)**

State or Territory and Tribal Building Codes Plus-Ups

- \$112M State or Territory
- \$25M Tribal
- Incentivize building code adoption and enforcement

Evaluate adoption and/or implementation of codes that reduce risk.

Enhance existing adopted codes to incorporate more current requirements or higher standards.

Develop professional workforce capabilities through technical assistance and training.

Uses of Assistance

Total Available BRIC Funding in Fiscal Year 2023 - \$1 Billion

Uses of Assistance	\$112M State/Territory Allocation	\$50M Tribal Set-Aside	\$112M State/Territory Building Code Plus-Up	\$25M Tribal Building Code Plus-Up	\$701M National Competition for Mitigation Projects
Management Costs	✓	✓	✓	✓	✓
Capability- and Capacity-Building Activities	✓	✓			
Hazard Mitigation Projects	✓	✓			✓
Building Code Adoption and Enforcement	✓	✓	✓	✓	

Building Resilient Infrastructure and Communities (BRIC)

Key Changes for Fiscal Year 2023

- Building Code Plus-Ups (Tribal and State or Territory)
- Equity data measure shift from CDC SVI to CEJST and Community Disaster Resilience Zones
- State/Territory Allocation includes a minimum of \$400,000 for any combination of capability- and capacity-building activities and projects primarily benefiting Community Disaster Resilience Zones
- Benefiting area maps
- Streamlined cost-effectiveness determination methods and benefit-cost analysis assistance
- Rescoring evaluation criteria
 - Project alignment with top mitigation hazard
 - Building code adoption and enforcement or alternative higher standard
 - Removal of non-federal cost share

Federal Cost Share and Management Costs

- Generally, the cost share for the BRIC grant program is 75% federal cost share and 25% non-federal cost share.
- However:
 - Up to 90% for Economically Disadvantaged Rural Communities
 - Up to 90% for Community Disaster Resilience Zones
 - Up to 100% of Management Costs
- For insular areas, including American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands, FEMA automatically waives the non-federal cost share for the recipient when the non-federal cost share for the entire award is under \$200,000.

Capability- and Capacity-Building Activities

BRIC Direct Technical Assistance (BRIC DTA) – Goals & Eligible Activities

Needs of
community or
Tribal Nation
drive BRIC DTA
Action Plan

Holistic hazard mitigating planning and project support from the earliest stages, tailored to the needs and priorities of communities and Tribal Nations interested in FEMA partnership.

Activities can include:

- Broad planning and capacity-building support
- Community engagement
- Strategic communications
- Partnership building
- Hazard mitigation plan development
- Benefit-cost analysis
- Mitigation alternatives development
- Project scoping
- Project design
- Project implementation for BRIC-funded projects
- Grant applications and grants management

Eligibility for BRIC DTA

- Cities
- Towns/Townships
- Municipalities
- Counties
- Parishes
- Special District Governments
- Territories
- Federally Recognized Tribal Governments
- Groups of two or more communities that fit the above criteria

NOT REQUIRED!

- X A BRIC grant subapplication or award under the State/Territory Allocation, Tribal Set-Aside, or National Competition.
- X An approved hazard mitigation plan

BRIC DTA Request Submission Period

- Submission period opened October 16, 2023.
- Complete [FEMA Form FF-206-FY-22-155, BRIC Direct Technical Assistance Request Form](#) found on BRIC DTA website.
- Send request form to BRIC DTA Submission Inbox: fema-bric-dta-submission@fema.dhs.gov before or by February 29, 2024, 3 p.m. Eastern Time.

BRIC Fiscal Year 2022 Tribal Selection Examples

Annette Island, AK

- Utility and Infrastructure Protection
 - **Metlakatla Indian Community** will raise a dam to increase water capture within the Chester Lake drainage basin during drought years, improving water security for the community.

- Project Scoping
 - **Karuk Tribe Housing Authority (KTHA)** will conduct community scoping and electrical grid feasibility assessments that will provide a cost effective, safe, green energy microgrid design that may be used to apply for FEMA funds to provide a reliable microgrid infrastructure.
- Saferoom
 - **Citizen Potawatomi Nation** will build a saferoom where the shelter's size will be adequate to house and protect all residents of the expanding, low-income tribal housing community, Citizen Place.

FEMA

An aerial photograph of a coastal town, likely in New England, featuring a large marina filled with sailboats and yachts. The town is built on a hillside, surrounded by dense green forest. The image is overlaid with a semi-transparent blue filter. The text "How to Apply: FEMA Grants Outcomes (FEMA GO)" is centered in white, bold font.

How to Apply: FEMA Grants Outcomes (FEMA GO)

Application Development Best Practices

Do

- Use clear and consistent naming conventions for attachments
- Provide supporting documentation
- Consider project scoping or phasing for larger complex projects
- Match project or activities with program and Notice of Funding Opportunity (NOFO) priorities

Don't

- Include inaccurate information
- Forget to attach key documents
- Provide unclear descriptions of the intended level of protection
- Fail to connect natural hazards to the project

How to Apply

- Eligible applicants must apply for funding using FEMA Grants Outcomes (FEMA GO) at the [FEMA GO Portal](#).
- Visit [FEMA GO for Hazard Mitigation Assistance Grants](#) to view the technical user manuals and support materials.

******Consider Applying to Both Programs to Maximize Success******

Application Deadlines

- The application period opens on October 16, 2023.
- Applicants who experience system-related issues will be addressed until 3:00 p.m. Eastern Standard Time on February 27, 2024.
- Applications must be received in FEMA GO by February 29, 2024, at 3:00 p.m. Eastern Standard Time.

An aerial photograph of a coastal town, likely in New England, featuring a harbor filled with numerous sailboats. The town is built on a hillside, with a prominent church steeple visible on the right. The entire image is overlaid with a semi-transparent blue gradient.
