⁸ (Help text) A competitive proposal is normally conducted with more than one source submitting an offer and generally used when conditions are not appropriate for the use of sealed bids.

⁹ (Help text) A noncompetitive proposal entails a solicitation of a proposal from only one source. For more information on noncompetitive procurement, see the Procurement and Contracting Requirements section of the Public Assistance Program and Policy Guide ([PAPPG](#)).

☐ A public exigency¹⁰ or emergency¹¹ would not allow a delay resulting from competitive solicitation.¹²

Please describe the specific conditions and circumstances that clearly illustrate why competitive procurement would cause unacceptable delay in addressing the public exigency or emergency:

Is this only for work specifically related to the exigent or emergency circumstances?

☐ No

☐ Yes. **How long does the Applicant anticipate the exigency or emergency circumstances to continue?** (MM/DD/YYYY). *Please describe:*

☐ FEMA or the Recipient authorized a noncompetitive proposal. *Please upload written correspondence. [required]*

☐ After solicitation of several sources, competition was determined inadequate. *Please describe:*

What were the specific steps taken to determine that full and open competition could not be done for the scope of work?

Did the Applicant make efforts to identify potential conflicts of interest before the noncompetitive procurement occurred?

☐ No. *Please explain why not:*

☐ Yes. **Were any conflicts of interest identified before the noncompetitive procurement occurred?**

☐ No

☐ Yes. *Please describe:*

Is there any other justification for the noncompetitive procurement?

☐ No

☐ Yes. *Please describe:*

Applicants need to immediately begin the process of competitively procuring similar goods and services and transition to a competitively procured contract.

How long will it take to award a contract that complies with all procurement requirements?
(MM/DD/YYYY) *Please describe:*

¹⁰ (Help text) For example, a tornado impacts a city in June and causes widespread and catastrophic damage, including damage to a city school. The city wants to repair the school and have it ready for use by the beginning of the school year in September. The city estimates, based on experience, that awarding a contract using a sealed bidding process would require at least 90 days, and the city's engineer estimates that the repair work would last another 60 days. This would extend the project beyond the beginning of the school year. Rather than conducting a sealed bidding process, the city—in compliance with State and local law—wants to sole source with a contractor it has contracted with previously.

¹¹ (Help text) For example, severe weather impacts a city and causes widespread and catastrophic damage, including loss of life, widespread flooding, loss of power, damage to public and private structures, and millions of cubic yards of debris across the city, leaving majority of the jurisdiction inaccessible. The city needs to begin debris removal activities immediately to restore access to the community, support search and rescue operations, power restoration, and address health and safety concerns.

¹² (Help text) Applicants need to immediately begin the process of competitively procuring similar goods and services and transition to a competitively procured contract as soon as the circumstances cease to exist.

What would the impact be on the contract's scope of work if the noncompetitive contract is terminated prior to the contract deadline? *Please upload supporting documentation and describe:*

☐ Sealed bid¹³

- ☐ No¹⁷
☐ Yes. *Please provide the ceiling price:* \$

Did the Applicant maintain a high degree of oversight to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls?

- ☐ No¹⁸
