UFR Advisor Deployment Guide

Legend

■ Decision Point ■ UFAD Recommendation

1. UFAD needed to support disaster operations?

Potential Indicators:

- Deployment of FDRO
- UFAD requested by REO, Regional UFR Coordinator, or EHLD/EHAD
- Recommendation from National UFR Coordinator
- Activation of Interagency Recovery Coordination Group of RSFs
- Extensive Interagency Coordination Anticipated
- Presence of multiple funding agencies
- Extensive impacts to EHP resources

→ No

↓ Yes

UFAD Recommended

2. UFAD ODT needed to support OEHP UFR Activities?

Potential Indicators:

- Support needed to incorporate UFG considerations into OEHP Policy/Procedure Documents
- Support needed to facilitate sharing of data between federal agencies
- Support needed to implement priorities from UFR Strategy and Implementation Plan
- Request made by National UFR Coordinator

→ No

↓ Yes

UFAD Recommended

3. UFAD needed to support targeted UFR disaster recovery activities in the Region?

Potential Indicators:

- Support needed for programmatic initiatives to support recovery efforts
- Support needed to refine Regional UFR Implementation Plans
- Support needed integrating UFR process into State disaster recovery or mitigation planning/coordination
- Agreement between National UFR Coordinator, Regional UFR Coordinator/REO, & UFAD DCC SOR

→ No

↓ Yes

UFAD Recommended

4. Need to deploy UFAD in EHP Role?

Potential Indicators:

- Request from REO or Disaster Field Leadership that can't be met with other DCC Staff
- UFAD's specific skills, experience, and/or contacts are ideal for deployment request
- Opportunities for UFAD to develop UFR knowledge base
- Recommendation from UFAD DCC SOR

↓ Yes

UFAD Recommended

↓ No

UFAD Not Recommended

higher ← **Expected Prioritization** → *lower*
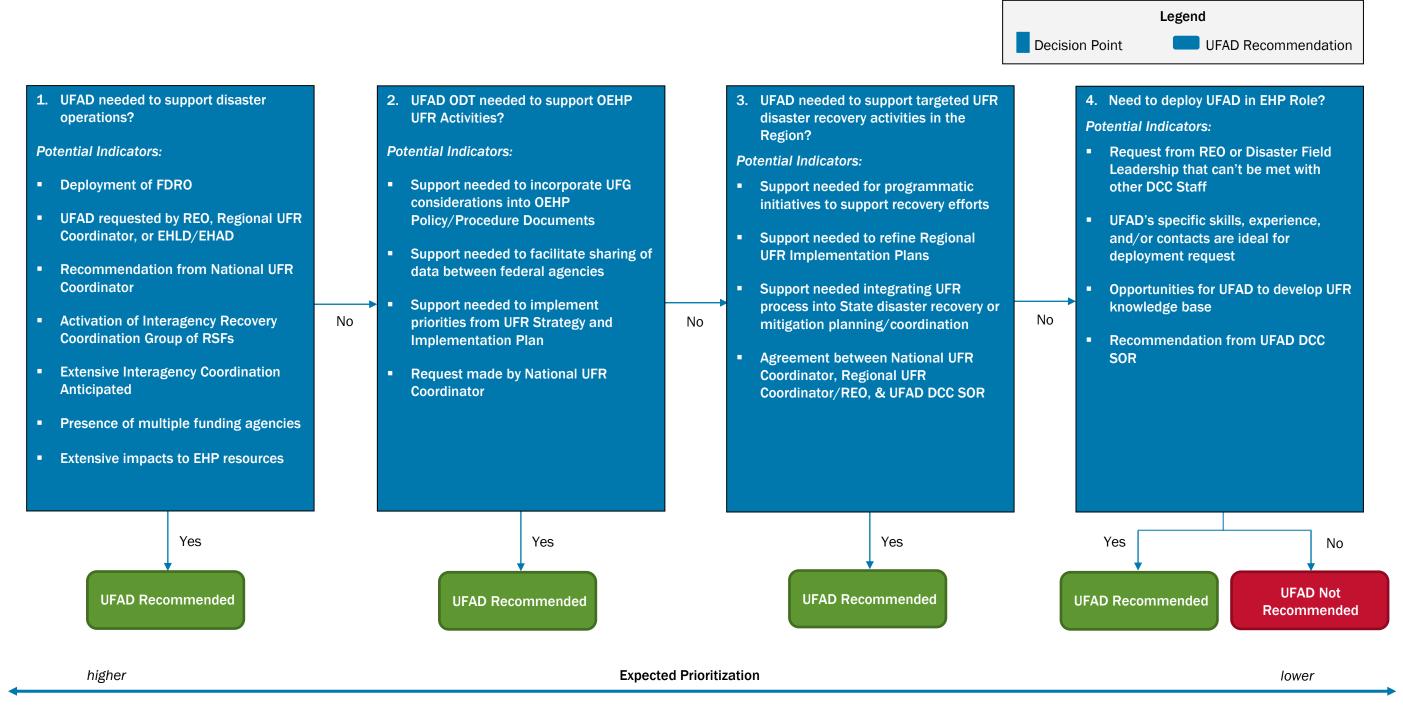

Notes:
- UFAD requests can be generated by REO/Regional UFR Coordinator, EHAD, Cadre Coordinator or National UFR Coordinator
- Potential Indicators are specific data points that should be generally considered when determining the potential need for an UFAD.
- When adjudicating multiple UFAD requests/needs, Decision Point #1 should generally be given priority over Decision Point #2; Decision Point #2 over Decision Point #3, etc.
- There may be extenuating circumstances that give lower weighted Decision Points priority (e.g. Decision point #3 could take priority over Decision Point #2).
- ODT = Other Duty Travel; SOR = Supervisor of Record
