

FEMA Provides \$36 Million to Wayne County

Release Date: Tháng 3 17, 2021

CHICAGO – The U.S. Department of Homeland Security’s Federal Emergency Management Agency (FEMA) and Michigan State Police, Emergency Management and Homeland Security Division announced today that \$36,088,864 in federal funding has been made available to Wayne County for costs related to the state’s response to the COVID-19 pandemic under the federal disaster declaration of March 27, 2020.

This funding is an advance payment to Wayne County for eligible reimbursable costs related to vaccine distribution. The county will operate nine vaccination sites to rapidly provide available COVID-19 vaccines to individuals in the community.

“FEMA’s Public Assistance Program is an important resource for communities affected by COVID-19,” said Kevin M. Sligh, acting regional administrator, FEMA Region 5. “This expedited grant funding will help Wayne County and the state of Michigan end this pandemic and expand availability of COVID-19 vaccines to individuals who most need them.”

“This funding will help Michigan continue its efforts to provide these safe and effective vaccines to Michigan residents,” said Capt. Kevin Sweeney, deputy state director of Emergency Management and commander of the Michigan State Police, Emergency Management and Homeland Security Division. “We appreciate FEMA’s partnership and continued support in combatting this pandemic.”

FEMA provides funding at a 100 percent federal share of eligible reimbursable expenses for this project.

FEMA’s Public Assistance Program provides funding to local government jurisdictions and eligible private non-profits for the repair, replacement, or restoration of disaster-damaged infrastructure as well as costs incurred for emergency actions taken to protect lives or property.
