

Private Nonprofit Arkansas Houses of Worship May Be Eligible for FEMA Help to Cover Tornado Damage

Release Date: Tháng 4 24, 2023

LITTLE ROCK, Ark.— Qualifying private nonprofit houses of worship in Arkansas may be eligible for FEMA grants to cover expenses related to the March 31 severe storms and tornadoes.

Grants through FEMA's Public Assistance program may cover costs to repair or replace facilities damaged during the storms.

FEMA defines religious facilities as a church, synagogue, mosque, temple or other house of worship without regard to the religious character of the facility. No religious facility or house of worship may be excluded from this definition because leadership or membership in the organization is limited to persons who share a religious faith or practice.

Help with repairs and replacement costs may be available to houses of worship in Cross, Lonoke and Pulaski counties.

To be an eligible applicant, a house of worship must:

- Be owned or operated by a private nonprofit organization.
- The facility must be open to the public.
- Have been damaged by the March 31 severe storms and tornadoes.
- Have either not received funding or received insufficient funding after applying for a U.S. Small Business Administration (SBA) disaster loan to repair or replace a facility.
- The application must include state and/or U.S. Internal Revenue Service documentation of tax-exempt status, pre-disaster charter and other documentation.
